OUTLOOK

THE NEWS MAGAZINE OF OUTWOOD ACADEMY DANUM

Students First
OUTWOOD
ACADEMY DANUM

Dear Families,

Welcome to the spring edition of the Outwood Academy Danum newsletter. I'm sure you'll join me in feeling very proud of our school community. Our staff are doing a wonderful job of creating lots of exciting opportunities in all areas of the school, and it's great to see the students really thrive. Make sure you follow us on X, Instagram or Facebook where we proudly showcase the wonderful work of our staff and our students. It brings a smile to my face every day.

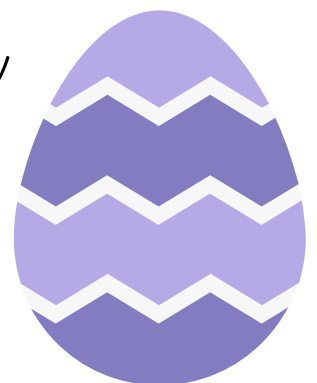

The school has invested heavily in ensuring our pupils get a chance to experience education outside of the classroom this academic year. We were very proud to take over 180 pupils to the theatre last week to watch Macbeth, one of their set texts. The pupils were a credit to the school, and enjoyed seeing their text in action. The history department are again leading the way in educational visits, and have recently visited York Dungeons along with the museum to bring history to life. The pupils got a chance to walk through history, and see how life has evolved over time. Indeed, the music department has sourced some fabulous opportunities for our pupils working with WeCompose24, where our pupils will have the chance to have their pieces played by a professional string quartet. And you won't fail to be impressed by our show, Aladdin. The pupils and staff have worked hard for this performance, with our brand new lighting and sound equipment put to the test. I'm sure you'll agree, that's just a small part of what has been a huge push to reward our pupils who work hard with exciting opportunities. The school is determined to keep providing a wide enrichment offer.

As we enter the exam season, our student body is well underway with their exam preparation ready for them to take their next steps in life, be it college, apprenticeships or University. Our huge revision fayre focused on sharing the latest tips on learning, and how to make the most of the time left available to them. At this point, every mark matters and every minute counts! To help shape ideas on future pathways, we took the majority of Y10 and Y11 to the careers showcase at the Doncaster Racecourse: this helped introduce our pupils to local work offers along with further education opportunities. We want our pupils to know that the world is there for them, if they are willing to work hard for what they want.

As we move to the next term, we will focus on some core principles: being responsible; being respectful and being extraordinary. Our pupil and staff wellbeing is central to this. Students that behave responsibly ensure they are safe. Students who are respectful build effective working relationships. Finally, students that work to be extraordinary help themselves stand out from the crowd. All this counts towards a happy and safe place.

Our children will enter the workplace with thousands of other students in the borough. As a team of school and family, we can ensure that our pupils leave school as well-rounded and able students ready to take on the world.

Mrs Crane

Scan me, give feedback and your child will be entered into a draw for a free cookie or drink!

Revision

Fayre

We held our second annual Y11 Revision Fayre on Wednesday 7th February. Students came to collect revision goodies such as flashcards, knowledge organisers, revision timetables and more. Departments provided subject-specific resources and stationery to ensure students were prepared for the mocks and more. It was fantastic to see parents, students and teachers all talking about revision and how to support learners. There were also stalls for careers, wellbeing, prom and 6th form.

Not to mention the superb spread and refreshments from our wonderful kitchen staff. Paintball, Amazon, Pizza Hut and Love to Shop voucher draws were made for students who attended. A video is on our social media channels showing what Y10 can look forward to next year!

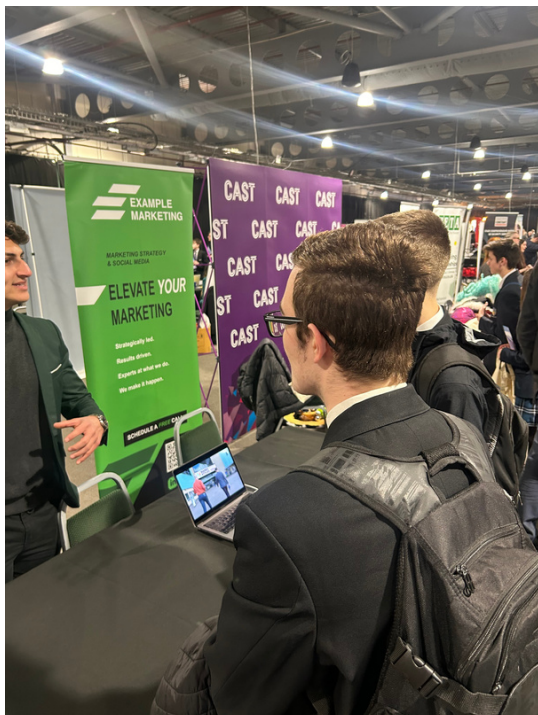

CAREERS

This term we have continued to look to provide our students with lots of support and guidance in terms of making informed choices with their careers. As part of National Careers Week there was a whole school assembly on Labour Market Information in Doncaster and the surrounding area. Students in Year 7 have been working on elements of careers in their Health and Wellbeing lessons and Y10 and 11 students have continued to receive some valuable input from our new careers advisor Shannon Lidster through careers interviews. On 7th March, we were fortunate enough to have the opportunity to travel to The Racecourse, where our Year 10 and 11 students were able to take part in this year's Opportunities Doncaster Live 2024 event. This is the largest careers fair in South Yorkshire, where hundreds of businesses and prospective Post-16 providers came together to meet students and promote the opportunities and potential career pathways that are available to our students after life at Outwood Academy Danum.

This was a fantastic day for our students to pick up some vital information on the skills, qualities and qualifications that they may need to pursue future careers

On Thursday 14th March, four members of the School Parliament travelled to Elland Road, Leeds to participate in the OGAT Student Voice Conference. This year's theme was Championing Mental Wellbeing and Celebrating Diversity. The conference involved over 35 schools from within the Outwood Family participating in a series of workshops being delivered by some external speakers and organisations which involved students working on strategies around which they could raise the profile of student wellbeing and in particular considering ways in which student diversity could be embraced and celebrated. Students were also privileged to have an audience with our new CEO Mr Wilson, who spoke about the challenges that young people in 2024 face in a technological world where people have so much access to each others' lives. Students worked hard at coming up with ideas that they will bring back to Outwood Academy Danum and share with their peers at Parliament, before preparing to present these to Mrs Crane and the Leadership Team.

STUDENT VOICE CONFERENCE

Physical Education

KS4

In core Key Stage 4 PE lessons, students have been participating in a range of sporting activities including badminton, table tennis, dance and basketball. The aim of these sessions has been to refine performance skills and improve accuracy as well as developing an understanding of the benefits of participating in sport once students leave school.

In Year 10 Sport Studies, students have been finishing their 'Knowledge and Skills in Outdoor Activities' unit. They have been researching different outdoor activities available within our region as well as nationally and finding out about the technology and equipment required. Students have also planned their own orienteering session. In Year 11 Sport Studies, students have started to prepare for their exam unit on 'Contemporary Issues in Sport'. Topics looked at so far include user groups who participate in sport, potential participation barriers and the implications of hosting a major sporting event. They have also completed practice exam questions and have been provided with revision resources to continue preparation for their exam at home.

KS3

Across Year 7-9 students have been participating in a range of activities including the new activity blocks of dance, healthy, active lifestyles and outdoor adventurous activities. In Year 7, students have been building on the fundamental skills learnt at primary school and have experienced new sports. In Year 8, students have continued to develop these core techniques as well as consider new tactics and strategies to apply in performance environments. In Year 9, students have learnt about more advanced skills in the sports that they have studied.

Leadership

KS3 Across Year 7-9 students have been participating in a range of activities including the new activity blocks of dance, healthy, active lifestyles and outdoor adventurous activities. In Year 7, students have been building on the fundamental skills learnt at primary school and have experienced new sports. In Year 8, students have continued to develop these core techniques as well as consider new tactics and strategies to apply in performance environments. In Year 9, students have learnt about more advanced skills in the sports that they have studied.

Let Girls Play! To coincide with International Women's Day, all Year 7-9 girls PE classes have taken part in the FA's 'Biggest Ever Football Session' as part of the 'Let Girls Play' initiative. Students completed a number of activities to develop their football skills before applying them in game situations. It was wonderful to see so many students positively engaged in the activities and it would be great to see more students getting involved with football enrichment.

The new Dance club has become increasingly popular since January. Students have been working together well to put together routines in different dance styles. So far they have completed a musical 'Mamma Mia' themed routine and a hip hop routine. It has been fantastic to see so many talented dancers across all years.

PE Enrichment

Football

The Year 7 and 8 boys played a nail biting game against Ash Hill Academy this half term. They eventually won on penalties 4-3.

Futsal

On the 25th January, Outwood Academy Danum hosted the Year 7 and 8 Doncaster Boys Futsal Tournament. While unfortunately, the Outwood Academy Danum team did not make it into the final, their enthusiasm and good sportsmanship was clear to see. The Year 9 and 10 students who officiated the event also demonstrated great confidence and leadership skills when co-ordinating so many younger students.

Basketball

There have been a number of boys basketball fixtures for all year groups this half term. One particular highlight was the Year 9 and 10 game against Wickersley School and Sports College from Rotherham. Both teams played brilliantly but Outwood Academy Danum came out on top with a score of 68-38. They then also went on to take the follow up game 48-44.

Doncaster Indoor Athletics

In February, Year 7-10 students attended the Doncaster Indoor Athletics Competition at the EIS in Sheffield. All year groups represented the school well with exceptional performances from Lily K in the 800m, Lewis L in the 800m, Anya C in the 60m and Samuel A in the relay.

Maths + % +

Year 8

Learners have been looking at algebra and how the use of brackets affects equations. They have also looked at circles to coincide with Pi Day on the 14th of March.

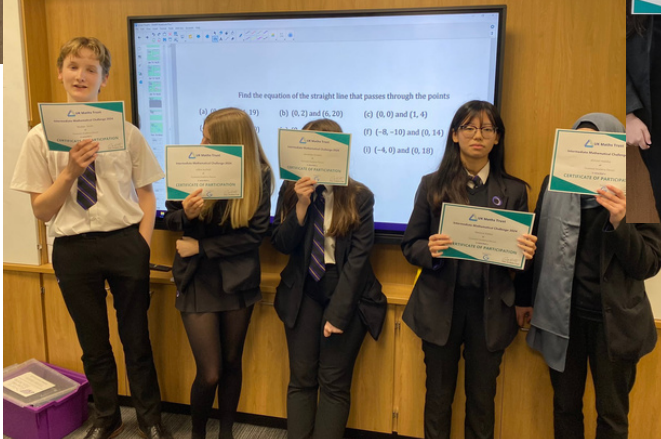

Year 7

Year 7 have been looking at the area of parallelograms, triangles and trapezium and composite shapes made from these basic shapes.

They have also looked at fractions and their conversions between decimals and percentages. Negative numbers and averages have also been taught this term.

Year 9

Pupils have further developed algebra concepts including indices and fractional indices and moving into rational and irrational numbers by studying surds.

Year 10

Year 10 have continued to develop the area of shapes and circles along with perimeter and volume.

Year 11

Year 11 have worked towards their mock exams and have had a bespoke scheme of work delivered to each class based on the strengths and areas for development of the students.

Year 12 & 13

Post 16 have been working towards Mock exams and have developed further calculus skills.

Enrichment

After school Maths has been attended very well over the term and students are already seeing progress in their Mock exam scores and grades.

Homework club is available on Thursday in 164 for students to complete their Sparx.

Year 7

Year 7 have now completed two immersive read books. It has been great for staff to prioritise reading with the classes and we are seeing an increase in reading ages. We cannot wait to start reading our first play text. How To Be A Kid!

Year 9

Year 9 have finished the Woman In Black and are close to finishing Heroes. It is wonderful to have the opportunity to read two full novels each year. We are starting to prepare for the beginning of our GCSE curriculum by working on our writing skills, particularly writing formal and informal letters.

Y12 & 13

Post 16 students are working very hard at the moment. They are taking full advantage of the additional revision events we are putting on. Literature students are finishing their work on Tragedy and are now looking at Social Protest writing. In A Level English Language students are starting to look at language acquisition and Language and Gender.

Enrichment

Pokemon club and journalism club remain popular key stage 3 choices. Students are working towards putting together a newspaper on a monthly basis.

Year 11 after school English is on a Monday night. This is a chance for students to revise with staff, get expert masterclasses and complete any homework with some staff help.

We are also very pleased with the attendance of our holiday revision events. Look out for the text messages advertising these.

English

Year 8

Year 8 are about to begin studying their Shakespeare text for this year, which is Much Ado About Nothing. Staff have been working hard to build students' confidence in the language and make sure the unit is engaging. We are looking forward to hosting a movie night where students can watch the play.

Year 11

Year 11 continue to work extremely hard. There is a packed programme ensuring all aspects of GCSE English Literature and English Language are revised fully. Many of our students are extremely engaged in the 100 days of literature challenge, maintaining a strong streak! A reminder that homework is set on google classroom each week.

Year 10

Year 10 have started to study Macbeth and were fortunate to travel up the M1 for a school trip to Leeds Playhouse to watch a performance. For year 10 we have changed our GCSE texts to Macbeth and An Inspector Calls. Our staff cannot wait for change and we are sure the students will be excited by the new choices.

Geography

KS3

Year 7 have been looking at development this half term and discovering why wealth is uneven across the world!. Year 7 are now beginning to speak like geographers and are banned from saying the rich and poor! This topic enables our Year 7 students to really understand the world around them before we dive into case studies!

This half term Year 8 have investigated how two people died in Venice; how sustainable Outwood Academy Danum is and debated whether Miss Parkhurst should visit the Maldives - all linking to climate change!

Year 9 finished studying all about natural hazards this half term - with all the news about Icelandic eruptions - it really did rock!

Year 9 are now debating whether Russia is a Prisoner of its own geography. You can also read all about it - our lessons are inspired by Tim Marshall whose book is available to buy!

KS4

Year 10 have been studying Urban geography - diving into the favelas of Rio de Janeiro and the Park Hill Flats of Sheffield! This is building up to the summer term fieldwork trip where Year 10 will have the opportunity to visit Park Hill flats to see how these have changed over time! Did you know that our Year 10 students can head to Geography.outwood.com and watch the lesson videos, read through model answers and practice revision activities at home - not forgetting Google Classroom for homework!

Year 11 have been working hard on their final Paper 2 topic - Economic Change, exploring Nigeria and Jamaica. After half term Year 11 will be working hard on Paper 3 pre release paper, in the final countdown to their exams! Did you know that our Year 10 and 11 students can head to Geography.outwood.com and watch the lesson videos, read through model answers and practice revision activities at home! Don't forget about Friday enrichment 2:30 - 3:30pm!

Trips

Keep your eyes peeled for lots of exciting Humanities trips happening next half term from Hornsea, to Sheffield and even a couple of hiking weekends with Duke of Edinburgh!

KS3 and KS4 revision resources and games:
geography.outwood.com

History

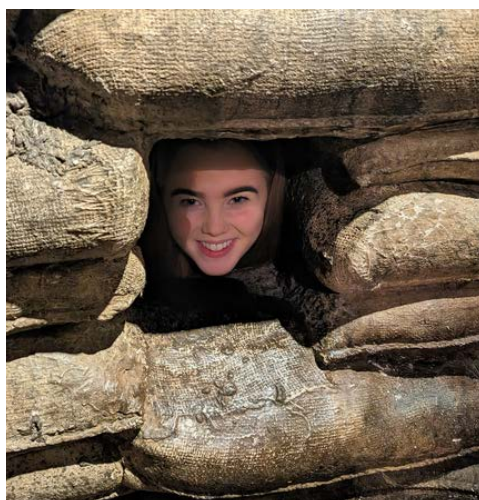

Year 11 Historians have gone above and beyond by attending online webinars with their teachers with the revise together initiative. Students log in for a short (30 minute) burst of revision led by a subject specialist to top up their revision and extend their learning beyond the classroom! Thanks to our teachers for also going above and beyond!

Great homework from Y7 who have been study medieval life including designing and making their own castles!

Next up, it's the Y8 Beamish trip in June!

Y9 Trip to York - March 2024

The nearest thing to a time machine!
Expression of Interest required
Year eight visit to Beamish is on **Tuesday 25th June.**

- Please be at the academy for for **07:45**
- Price is **£20**
- Dress for hot weather and prepare for rain, just incase
- Suggested **£10** spending
- Bring packed lunch and water

Drama & Performing Arts

Year 7

Y7 students in drama have explored the David Walliams novel *The Boy in the Dress* learning about characterisation skills as well as life skills such as tolerance and respect. The learning journey continued with Roald Dahl's classic, *Matilda* using synchronised movement, physical theatre and choral speaking in order to create work.

Year 8

Y8 learners began with a devised unit based on the nursery rhyme of Jack and Jill, a family saga of money, power, secrets and lies. This encouraged students to employ conflicting characters and devise from a stimulus. We have also studied the popular theatre practitioner, John Godber including extracts from his plays such as *Teachers*.

Year 9

Y9 pupils delved into Dennis Kelly's *DNA*, where a group of teens commit a crime and try to cover the whole thing up. Each week students read an extract before performing work from the play and based on key themes. This allowed students to take inspiration into our Big Issue topic, taking popular teenage issues and staging them: exam stress to vaping and substance misuse to stealing!

Year 10/11

Y10 and Y11 have undertaken work for their exam courses: Eduqas Vocational Tech Award for Y10 and BTEC Performing Arts for Y11. Year 11 are completing their component 3 responding to a brief and year 10 have been devising for their unit 2 performance exam.

Enrichment

This has been a really exciting term for our Performing Arts students.

Especially those that are Year 9/10 as they got the fantastic opportunity to go to see National Theatres live production of *Jekyll and Hyde*.

Our students have been working hard on *Aladdin* which has been a fantastic experience for them.

Trips & Events

There have been lots of exciting opportunities happening in Music. A Level Music students enjoyed a visit to Leeds Arena to watch 'Jurassic Park in Concert', while the renowned award-winning John Williams score is performed live by a full orchestra.

The Piano Celebration Concert was a huge success and gave our wonderful KS4 & 5 pianists the opportunity to play our Yamaha Grand Piano alongside our excellent piano tutor Ralph Brown. Parents, friends and carers gave a standing ovation to the young performers at the end of the concert.

WeCompose24 was launched in January to our KS4 & 5 music students with an introductory concert performed by the Ligeti Quartet. Students were introduced to a wide range of string repertoire and tools for composition.

Two of our WeCompose24 Composer workshops have taken place in school. Marcus Rock has been guiding and inspiring our students to think creatively about their own string quartet compositions.

Outwood Performer of the Year (OPOY) is back. Danum's musicians have earned huge success at this event which has been running for 2 years now. Students are busy preparing their performances to enter the competition again this year which takes place at CAST theatre in the summer term

KS3

Yr 7, 8 & 9 students have been studying Rhythm, how to create variations on a famous theme and developing their Ukulele Skills in half-term 3 and this half-term all of our KS3 students are learning to sing original and well known songs in 3 part harmony, leading to an opportunity to take part in Doncaster's very own annual massed singing event - iSing on Wed 24th April 2024.

Music

KS4 & 5

KS4 & 5 music students are working very hard on their String Quartet compositions which will be performed live by the Ligeti String Quartet in a culmination concert at Cast Theatre on Thurs 4th July. Students can share their progress with you at home through Soundtrap or Musescore.

Enrichment

Drum & Keyboard Club takes place every Monday with Mrs Duker in 89. This club is very well attended but we are always looking for new musicians to join!

Gcse Music Intervention takes place every Wednesday after school. Many Yr 11 music students have been putting in the extra hours making huge improvements to their coursework compositions.

Thursday is always busy in the music department with both members of staff leading Aladdin Ensemble and Solo Vocal rehearsals for the super talented cast and main characters.

Danum Voices takes place every Friday and we are currently 30 strong in number. We always welcome new members!!

Instrumental Practice takes place on Friday afternoons in our two practice rooms and this allows space, time and access to instruments for our budding musicians in all year groups.

Design Technology

Year 10

Engineering-the students are learning machine shop skills, producing exceptional quality products, they are proud to show their work. Theory work is focused on key skills of

Engineering such as identification of materials for a product, alternatives and justification.

Catering-we have super young Chefs! The students are learning and developing complex skills producing amazing dishes such as raspberry bavaois. They have been learning underpinning knowledge relating to macro and micro nutrients, impact of the economy, types of food services offered in provision.

Hair & Beauty-The students have been learning about hair and beauty from Ancient times to the 21st Century, linking ingredients that are still used today! Investigating the alternatives to animal testing of cosmetic products and the function of ingredients. The students made a lip balm from an ancient Egyptian recipe, evaluating the effectiveness and quality against modern products.

Health & Social Care-the students have completed the Component 1 input relating to human development and are now busy immersed in the Component 1 assessment.

They are applying taught knowledge to a brief. They are showing tenacity and determination to produce their very highest quality work. We are super proud of their resilience.

Enrichment & Events

DT Club on Wednesdays has really developed with the students challenging their skills in woodworking, making Block-Bots and multi-media stands. We have had a special DT Club where students made beautiful Mothers' Day gifts.

Year 10/11 Academic support
Enrichment-students attend Enrichment where they have guided 1-2-1 teacher support in Engineering, Health & Social Care and Hair & Beauty.

Design Technology

Year 11

All Year 11 students in DT have completed the core skills and underpinning knowledge for their exams. Engineering, Hospitality & Catering and Hair & Beauty are in their assessment window-evidencing their knowledge and skills to an externally set brief. Our Health & Social Care students have completed their NEA and are working hard learning key knowledge in Component 3 in preparation for the external exam.

Year 7, 8 & 9

Year 7, 8 and 9 have been working hard in Food Technology, Product Design and Engineering developing skills and applying underpinning knowledge. Our developing engineers and product designers are producing products over several lessons and the foodies are producing amazing dishes alternate weeks.

Post-16

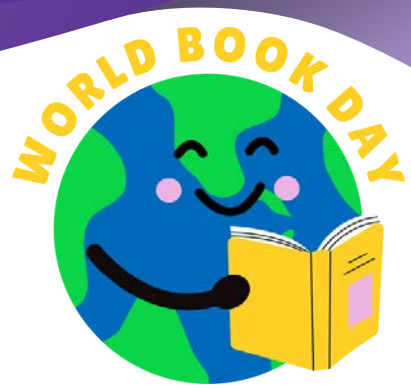

Year 12 Mechanical Engineering-the students have been learning practical and coursework skills to develop confidence in the machine shop and have produced a hammer demonstrating a range of industry skills.

Children's Play Learning and Development-the students have been proactive in sourcing work placements, fantastic reports from industry providers praising our students. In school they are working hard on Unit 5, learning the theorists and theoretical approaches to learning for children. Health & Social Care-students have been learning how the health and social care sector meets individual care and support needs, they are evidencing their knowledge through a set assignment brief.

Year 13

All our Year 13 students are working hard towards coursework competition in Mechanical Engineering and Children's Play, Learning and Development-also, completing work placemats in Early Years settings.

World Book Day

Celebrating World Book Day at Outwood Academy Danum

At Outwood Academy Danum, World Book Day was a vibrant celebration of literature and imagination, bringing students and staff together to honour the joy of reading. On this special occasion, students were immersed in a range of engaging activities that sparked their enthusiasm for books and storytelling.

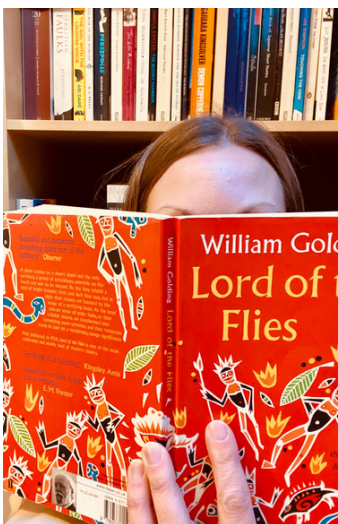

One of the highlights of the day was the "Guess the Teacher" quiz, where students matched their teachers with their favourite literary characters, showcasing their knowledge and creativity. Led by the ever-enthusiastic Mr Evans, a lunchtime quiz challenged students to test their literary knowledge, fostering friendly competition and fun among peers.

Adding to the festive atmosphere, both students and staff embraced the spirit of the day with delightful fancy dress costumes, transforming the school corridors into a colourful display of beloved book characters. The "Decorate the Door" competition further ignited students' creativity, as classroom doors were decorated with imaginative designs inspired by their favourite books.

Throughout the day, students delved into the narrative of 'Lamb to the Slaughter' by Roald Dahl, immersing themselves in the twists and turns of this tale. Additionally, our dedicated staff members took on the role of storytellers, captivating audiences in the Learning Resource Center (LRC) with their engaging readings.

To encourage a love for reading, students were provided with tokens for free books upon entry to the academy, allowing them to explore new worlds and embark on exciting adventures through the pages of a book. Moreover, the English department recognized and celebrated the efforts of our esteemed Reading Champions, whose exemplary attitude towards reading helps foster a positive reading culture within our school community. These champions were rewarded with exclusive access to our school reading vending machine, a testament to their dedication and enthusiasm for the written word.

As we reflect on the festivities of World Book Day, it is evident that literature has the power to unite, inspire, and transport us to new realms of imagination.

Year 7

Year 7 have worked on the topic of 'free time activities' in Spanish and are in the middle of doing the same in French before we work on 'family' in Spanish after Easter.

The recent assessment in Spanish was focused on writing and an achievement test in French which covers listening, reading, writing and speaking skills.

Year 8

Year 8 are about to begin studying about French and Spanish festivals and celebrations after covering the topic of holidays. The students have just completed a speaking assessment - a picture card accompanied by two questions.

Year 9

Year 9 for their part have focused on the topic of food and drinks/healthy lifestyle as well as daily routine. The assessment was a role play which was later followed by a read aloud task and translation task. They will follow this with the topic of global issues.

Enrichment

The popular Culture Club for KS3 students is running on Wednesdays now. The students are working on writing their own story in Spanish.

Fridays enrichment sessions are running for year 11 where students are working on their own weaker skills under the supervision of their teacher.

Some Easter revision sessions will be held during half term: French Wednesday 3 April, 9:30 to 12:30 and Spanish 9 April, 10:00 to 14:00.

Year 10/11

Year 10 have been doing house/home and region as well as school life and studies, resulting in end of unit assessments with a focus on listening, reading and writing skills.

Year 11 continue to work extremely hard. They are working on all four skills required for the MFL GCSE: Speaking, Listening, Reading and Writing. They worked on their Speaking prior to the Speaking Mock exam. They then revisited the following topics: Leisure, Family, Technology, House and Home, Holidays, My studies and Life at school but this time working on Listening, Reading and Listening as well as Speaking.

Y11 Spanish and French will be revising and honing their exam speaking exams which will be taking place week commencing 22nd. Year 11 Home Languages students are working hard too. Our very own Mrs Beaumont is supporting a pupil doing Chinese Mandarin and our EAL teacher Mrs Gancewska will be doing our Polish speaking exams. Mrs Baynham at OAD Adwick is helping with the Italian and support for our Turkish, Portuguese and Urdu students is coming from Doncaster Council. Russian speaking exams will be conducted by our MFL Director Mrs Harris-Jukes.

Homework is being set on Languagenut on a weekly basis from this half term.

IT & Computing

Key Stage 3:

Across Year 8 and Year 9 students have been introduced to Small Basic. This is allowing students the opportunity to learn how to program. Writing code in Small Basic introduces the three programming constructs sequence, selection and iteration. Not only does this module teach students how to code, it also builds a lot of skills, especially resilience. Coding isn't for the faint hearted however, watching students build confidence and resilience over the past few lessons has been nothing but heartwarming.

Key Stage 4:

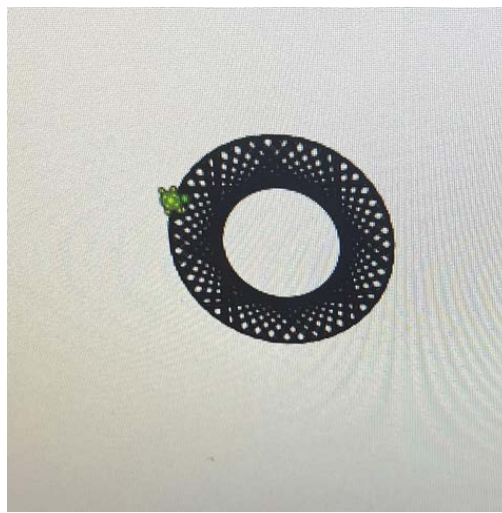

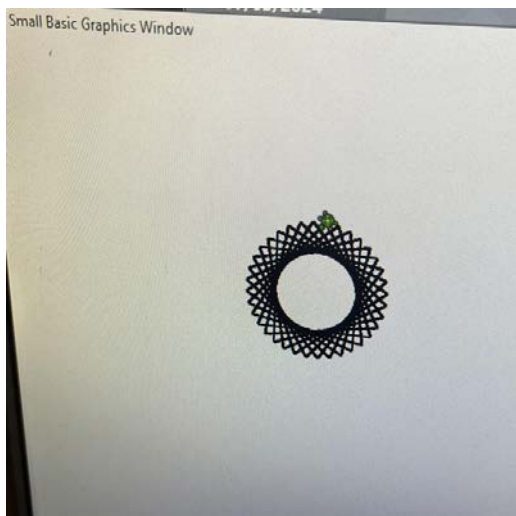

Year 10 have been working hard through the WJEC Unit 1 theory module over the past few lessons. Year 10 are now starting to prepare their practice coursework pieces so they are ready for Year 11.

Year 11 have been working extremely hard to complete their WJEC Coursework. All students have been focusing on picking up as many marks as possible over the 4 tasks. The resilience shown by Year 11 during such a demanding time of the year has been outstanding.

Key Stage 5:

Year 12 Computer Scientists have been focusing on Component 2 which focuses on thinking abstractly, procedurally, logically, software development and algorithms. Working collaboratively on bubble and insertion sorts, binary and linear searches has been fantastic to witness.

Year 12 have a busy 2 weeks upcoming for mocks however, once they are completed they are looking forward to making a start on their projects.

Enrichment

Key Stage 4:

- Year 11 IT Catch Up every Friday in 166.
- Upcoming Key Stage 3:
 - In the planning stage of introducing a Key Stage 3 Programming Club.
