

Monday 30th October 2023

Dear parent/carer,

Your child has now started their GCSE science learning. During year 10 and 11 they will be studying a variety of biology, chemistry and physics topics.

To enable your child to make the most progress possible, Outwood Academy Danum has purchased access to GCSEPod. All students will be having a weekly homework set on GCSEPod and we would like you to encourage them to complete the work set. Each student has been sent a link to the website in their google class. As well as being able to do their homework, there are a variety of subject specific videos to aid their learning.

In addition to this and to maintain high levels of progress, it would be very beneficial for them to have the CGP revision organiser bundle. These help students have the materials needed to learn and revise at home.

We have managed to get a reduced school price to support families however to cover the cost of this we are requesting a parental/carer contribution of £7.00.

The contribution can be made through your online iPay account. If you do not have an iPay account set up, please email finance@danum.outwood.com for details.

We would like to thank you for your support.

Yours faithfully,

Mrs N Rai
Head of Science
